

# 2020 Precision Plus+ Quick Reference Formulary

## Most Commonly Prescribed Medications

The Precision Plus+ Quick Reference Formulary is intended to provide a list of commonly prescribed drugs that are covered. This is not an all-inclusive list, the formulary covers many more drugs. On the Quick Reference, generic drugs are listed in lower case italics, and brand drugs are listed in CAPS. Remember, if a generic drug from the formulary is prescribed, the copay may be less than if a brand drug is prescribed. If the drug has step therapy or prior authorization on the formulary at the time of publishing, it is indicated below with a star (\*). There are other safety edits that are not listed because of the abbreviated nature of this document. Individual plan designs may also change coverage of products listed. To see the complete listing of covered products please visit [magellanrx.com](http://magellanrx.com).

### Drugs are listed alphabetically.

ACCU-SOFT TOUCH	COMBIVENT	hydroxyzine hcl	NOVOFINE PLS	simvastatin

COMBIGAN		NOVOFINE AUT	SIMBRINZA	

### Updated 11/2019, Effective 1/2020

Note: Precision and Precision Plus+ are the same formulary and have the same base criteria. The main differences are that autoimmune non-preferred drugs cannot be grandfathered. Previous Prior Authorizations for autoimmune non-preferred drugs should be terminated. This document is a partial list of medications that changes periodically. To ensure you have the most current version of the formulary, visit [magellanrx.com](http://magellanrx.com). Inclusion of a medication on this formulary is not a guarantee of coverage. Please refer to your plan of benefits for coverage limitations and exclusions. Not all benefits plans in all states are subject to quantity limits. For details regarding quantity limits for your particular benefits plan, contact Customer Service at the telephone number listed on your identification card.
